

6. Parameters

Product: Wi-Fi Smart Plug
Model: F3s202-USVC
Rated Voltage: 120V~
Rated Current: 15A
AC Frequency: 50/60Hz
Max. Power: Up to 1800W
Wireless Type: 2.4GHz
temperature limit of the control: - 10 to 40 °C
Rated impulse voltage: 1500V

FOR INDOOR USE ONLY
Type 1 action
Pollution Degree 2

System Support: IOS/Android

ON/Off Button
Press Long Time, Restore to Factory Settings

6

Caution

- High Voltage - Disconnect power supply before servicing
- La haute tension-Déconnecter l'alimentation électrique avant l'entretien

7

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

8

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
RF Exposure: A distance of 20cm shall be maintained between the antenna and users, and the transmitter module may not be co-located with any other transmitter or antenna.

Non-modification Statement:
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

9

ISED Statement

This Class [B] digital apparatus complies with Canadian CAN ICES-3(B).
Cet appareil numérique de la classe [B] est conforme à la norme NMB-3(B) du Canada.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
 2. This device must accept any interference, including interference that may cause undesired operation of the device.
- L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
1. L'appareil ne doit pas produire de brouillage;
 2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

10

This equipment complies with ISED RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

Pour se conformer aux exigences de conformité CNR 102 RF exposition, une distance de séparation d'au moins 20 cm doit être maintenue entre l'antenne de cet appareil et toutes les personnes.

Wi-Fi Smart Plug
Quick User Guide

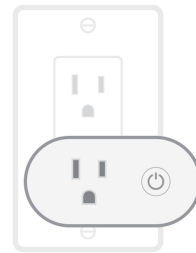

1

To download the VeSync app, scan the QR code or search "VeSync" in the Apple App Store® or Google Play Store.

1

2

Plug the smart plug into a wall socket.

2

3

Open the VeSync app. If you already have an account, tap Log In. To create a new account, tap Sign Up.

3

4

Tap + in the VeSync app and VeSync will automatically search for the smart plug. If the app cannot discover the smart plug, you can also find it by tapping "Outlet&Switch" and choosing "Sagewe Smart Plug". Follow the in-app instructions to add your smart plug.

4

5

After configuration, you can start your smart journey on VeSync~
